

SUMMARY

Ecology and conservation of the Desert Cat: Developing research projects on diet, distribution and habitat preference of the species *Leopardus garleppi*. As well as implementing activities to reduce threats, such as formal and informal environmental education, raising awareness among the rural population, improving chicken coops to reduce conflicts in rural areas, working with drivers and transport companies to reduce road accidents.

EDUCATION

UNIVERSIDAD NACIONAL DE PIURA - Biologist

RELEVANT

EXPERIENCE

- Representative in the Andean Tapir and Spectacled Bear conservation and research group in northern Peru.
- Participation as a representative member within the Participatory Committee of the San Pedro de Vice Mangrove Ramsar Site.
- Representative of the Northern Subnational Group within the project to update and identify Key Biodiversity Areas (KBA).
- Participation as a representative member within the Management Committee of the Illescas Reserved Zone.
- Participation in the workshops for the preparation of the Participatory Management Plan for the San Pedro de Vice Mangrove Ramsar Site 2019-2025.

GRANTS

2020: Idea Wild *Cebus aequatorialis* and *Aloutta palliata aequatorialis* habitat requirements in the largest equatorial dry forest remnant, the Amotape- Manglares Biosphere Reserve
2019: PCI *Cebus aequatorialis* and *Aloutta palliata aequatorialis* habitat requirements in the largest equatorial dry forest remnant, the Amotape-Manglares Biosphere Reserve

2019: Evaluation of the conservation status of endemic and threatened birds of the ACB Carpish, Peru. \$ 19.900

2017: "PDG for 1st Congress of the Peruvian Association of Primatology (APP)". \$2,002.00 (USD)
