# SSRS Indonesia Biodiversity Hub

Indonesia Tropical Species Database

2025

Biodiversitas Indonesia Office Team

**biodiversitas  
Indonesia**

**SSRS INDONESIA BIODIVERSITY HUB**

*part of SSRS Institute*

As a technical unit under the SSRS Institute, we serve as a leading information center for biodiversity in Indonesia. Our unit manages a comprehensive database that provides detailed and accurate information on Indonesia's biodiversity, down to the species and subspecies level.

# Training Activities

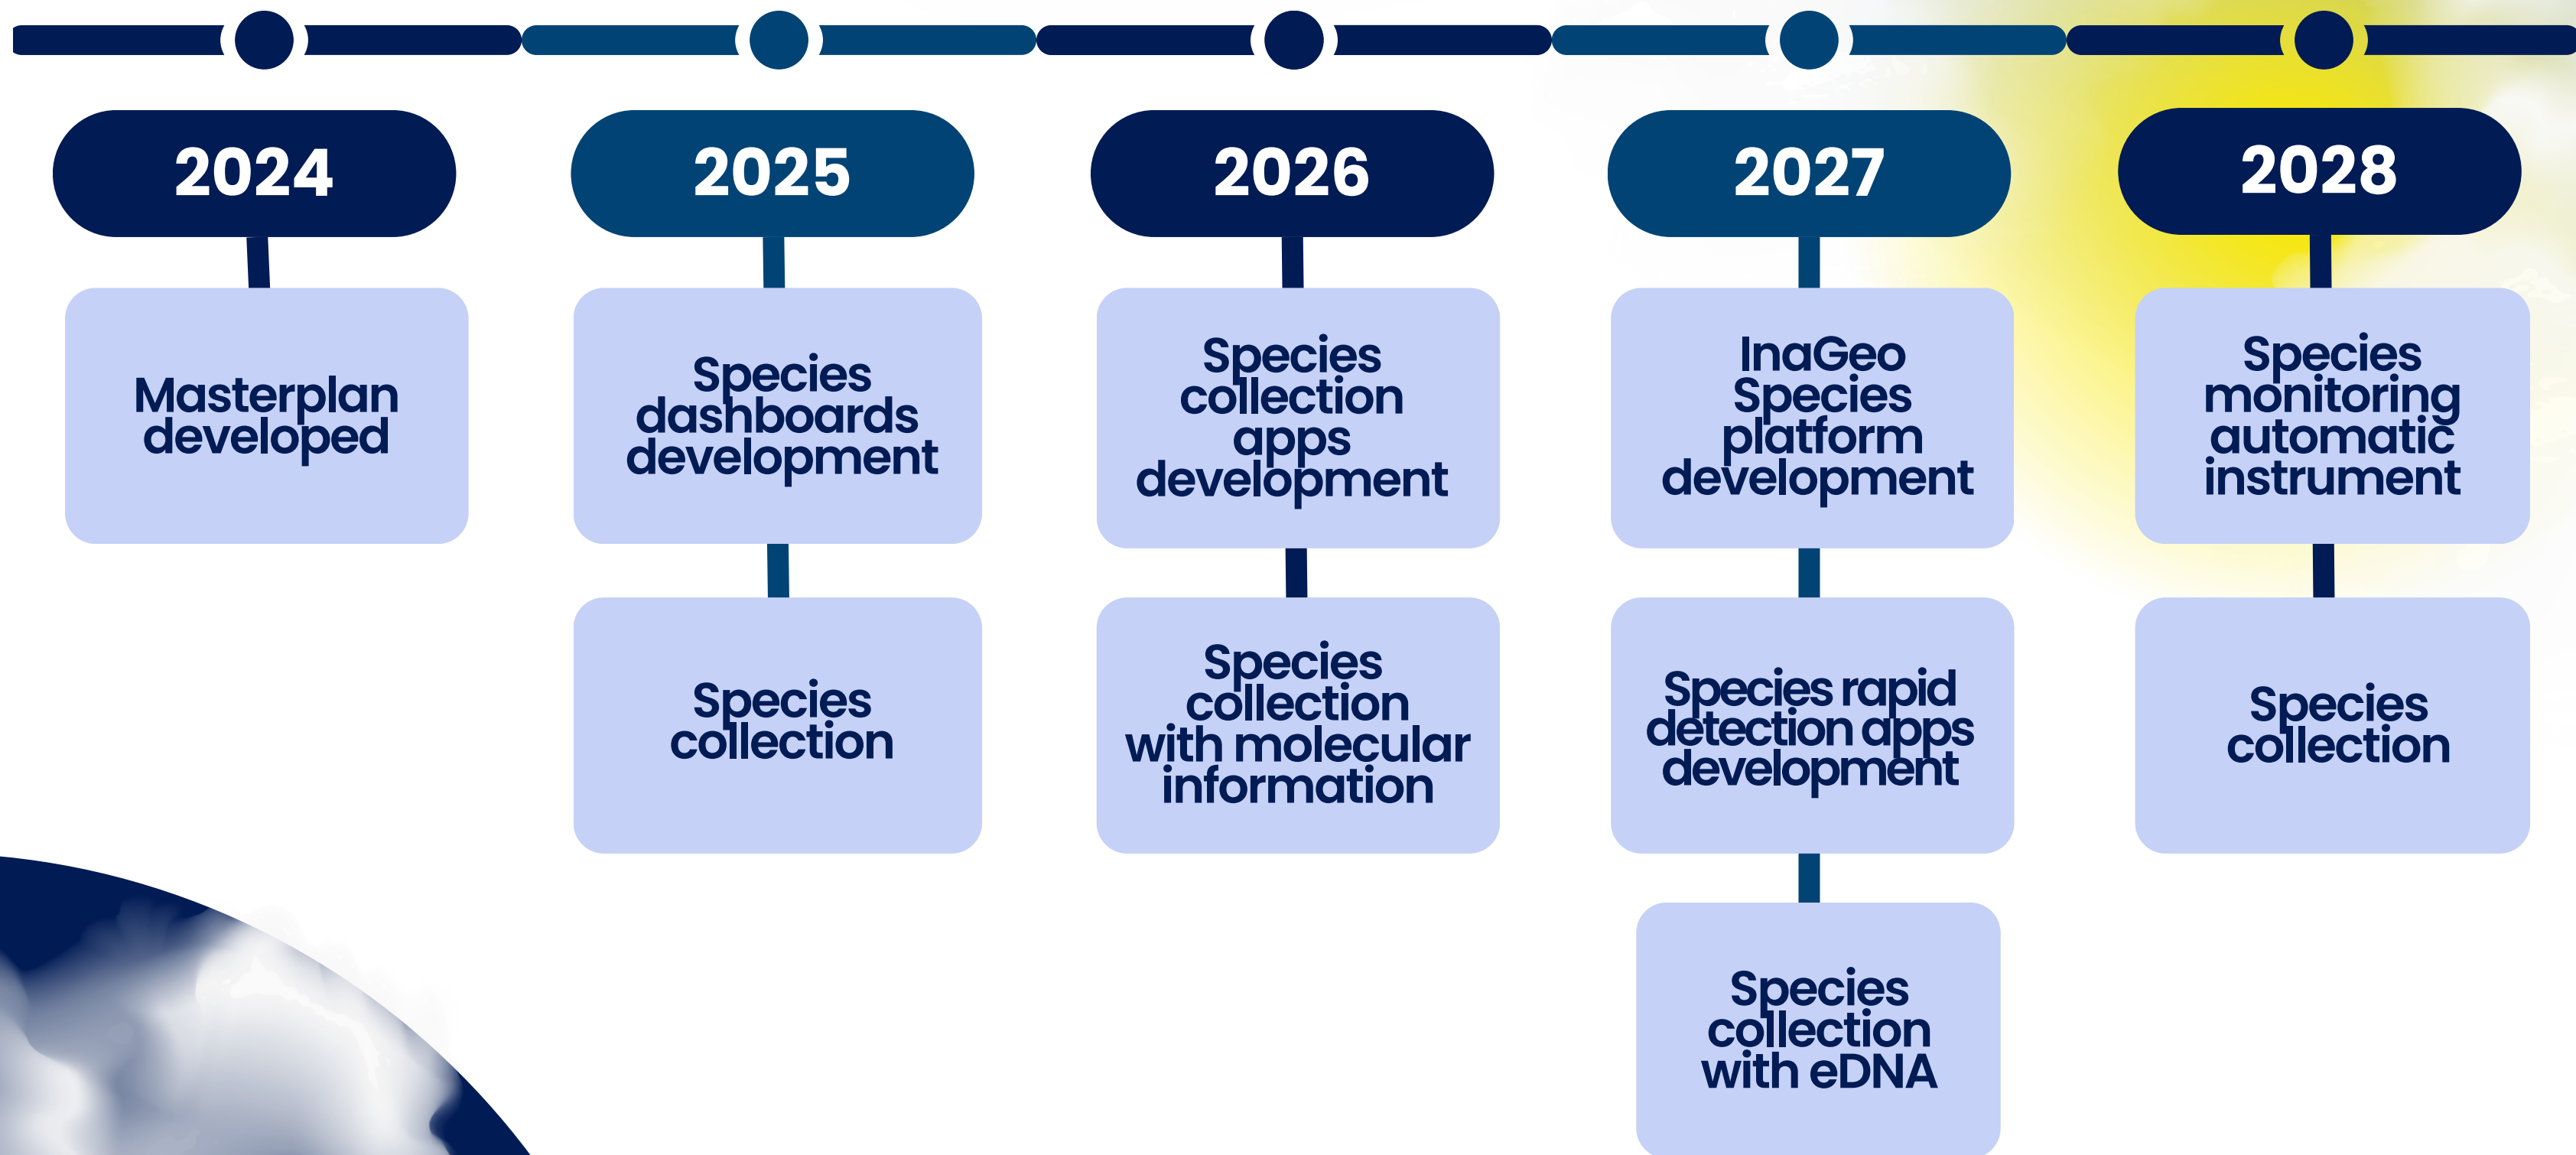

Bogor, 23 Jan 2025

Bogor, 18 Dec 2024

# Our Roadmap

# Our **Activities** 2025

**January**

Species training in  
IPB Forest  
Arboretum

**February**

Species collection  
in IPB Forest  
Arboretum

**March**

Species collection  
in CIFOR Forest  
Arboretum

**April**

Species collection  
in Cibodas  
Botanical Garden

**May**

Species collection  
in Cikaniki  
Research Station

**June**

Species collection  
in Cikaniki  
Research Station

**July**

Species collection  
in Cikaniki  
Research Station

**August**

Species collection  
in Gunung  
Halimun Salak  
National Park

**September**

Species collection  
in Gunung  
Halimun Salak  
National Park

**Oktober**

Species collection  
in Gunung Gede  
Pangrango  
National Park

**November**

Species collection  
in Gunung Gede  
Pangrango  
National Park

**December**

Species collection  
in Ujung Kulon  
National Park
